# STANDARD EQUIPMENT

## Refrigerating unit

- 3rd climatic class
- Plug-in unit powered with ecological R-290 refrigerant
- Fan assisted cooling X, Xi, F/NZ model Gravitational cooling – F, F Max, F /NW, A, A1, A2, A3 model
- Electronic temperature controller with display
- Access to a condenser that does not require tools
- Independend glass panes drainage system X, Xi, X/NW, Xi/NW model
- Condensate drain into the container F, F Max, F/NW, F/NZ, A, A1, A2, A3 model
- Automatic condensate evaporation system
   X, Xi, X/NW, Xi/NW model

#### Exposition

- Internal top made of stainless steel equipped with soft bumpers - F, F Max, F/NW, F/NZ, A, A1, A2, A3 model
- Internal top made of painted stainless steel
   X, X/NW model
- External top made of glass F, F Max, F/NW, F/NZ, A, A1, A2, A3 model
- Divided bottom of the exposition made of "mirror" stainless steel
- Electronic thermometer on the customer side
- LED lighting adapted for goods
- Glass panes opening system on the lift-up gas springs

   X model
- Front glass pane divided, flat, opened up

   X model
- Front glass pane flad, permanently fixed X/NW model
- Front glass pane flat, tilted F, F Max model
- Front glass pane flat, short Xi, Xi/NW model
- Front glass pane divided, straight, oblique
   A, A1, A2, A3 model
- All panes made of tempered glass 1
- Night covers (2)

#### Storage

- Non-threshold storage bottom made of stainless steel
- Door of storage in the same colour as housing with magnetic gasket
- Uncooled space under the storage, next to the aggregate
   F, A, A1, A2, A3 model
- Perforated platforms for EURO 2 containers
   F Max model
- Perforated platform on whole surface of storage bottom regulating air circulation – X, Xi model
- Storage allows to store:
  - X, Xi model from 4 pcs. up to 8 pcs. of Euro 2 containers
- F Max model 6 pcs. of Euro 2 containers

#### Housing

- Sides made of ABS in inoXframe design
- X, Xi, X/NW, Xi/NW model

Decorative sides made of HIPS in the colour from the RAPA colour chart, filled with ecological polyurethane foam – F, F Max, F/NW, F/NZ model

Plain sides made of silver-metallic HIPS, filled with ecological polyurethane foam – A3 model Sides made of HIPS in the colour of front finish – A1, A2 model

Sides made of grey laminated board – A model

- Coloured finish of the device front A, A1, A2, A3 model
- Housing painted in RAL 9005 Jet black colour semi mat – X, Xi, X/NW, Xi/NW model
   Housing painted in one of the colours chosen from the RAPA colour chart – F, F Max, A2, A3 model
   Housing painted in RAL 9003 Signal white colour – A, A1 model
- Legs masking in the colour of housing F, F Max, F/NW, F/NZ. A2 model

Legs masking in RAL 7004 Signal grey colour - A3 model

- Possibility to connect in longer series lines
- X, Xi, F, F Max model
- Adjustable legs
- Front panels made of powder-painted steel or furniture board – X, Xi, X/NW, Xi/NW model
- Backlighted, coloured bottom plafond of the device, HIPS colours to be chosen from the RAPA colour chart – F, F Max, F/NW, F/NZ, A2, A3 model
- Double electric socket from the service side on the right side of the device 3
- Front finish with silver-matellic bumpers of soft PVC
   F, F Max, F/NW, F/NZ model
- Front finish with grey bumpers of soft PVC
  - A, A1, A2, A3 model
- Front finish in 2 versions:
  - with bumpers
  - without bumpersg
  - X, Xi, X/NW, Xi/NW models

## Worktop

- Worktop made of grey laminated board A model
- Worktop made of grinded stainless steel X, Xi, X/NW, Xi/NW, A1, A2, A3 model
- Worktop made of "linen" stainless steel F, F max, F/NW, F/NZ model

## **ADDITIONAL EQUIPMENT**

- Worktop made of: granite, "linen" stainless steel, grinded stainless steel, laminated board
- Set of 4 pcs. of rotary wheels (2 with brake)\*
- Housing made of stainless steel
- Painting of housing in RAL colour from the RAPA colour chart
- Painting of housing in indyvidual of RAL colour
- Legs masking
- · Sloping bottom of the exposition area
- Front shelf for customer railing
- Shelf under the storage, next to aggregate (non-refrigerated)
- Shelf in the exposition area made of tempered glass (non-refrigerated)
- Exposure partition made of tempered glass permanently fixed (5)
- Storage partition permanently fixed
- Automatic condensate evaporation system
- Glass panes drainage system
- Set of 2 sides with side glass panes required in series lines
- Device without aggregate
- Front made of furniture board contact the Customer Service

- Support for glass shelf in exposition area of series lines
- Evaporator protected with a preservative coating
- Order and mountage of double electric socket
- Order counter without double electric socket
- Change the side of double electric socket mountage left side of the device

# ACCESSORIES

- Cutting board
- Pollen filter
- Cascade made of stainless steel "mirror" pattern 6
- Platform on worktop for cashbox or scale made of grinded stainles steel
- Platform for top containers in storage
- Front shelf for customer railing\*
- Exposure partition made of transparent PET or PMMA movable
- Exposure partition made of tempered glass movable
- USB temperature recorder

<sup>\*</sup> not applicable to modules joined in series lines

<sup>\*\*</sup> not applicable to internal corner models
